

PREPARATORY DEPARTMENT

OF

GEORGETOWN COLLEGE,

WILL OPEN ON THE

MONDAY IN SEPTEMBER NEXT.

N. B. WALLER, A. M., Principal.

THE services of Mr. WALLER have been

permanently secured. He brings with

him a reputation as an accomplished and suc-

cessful instructor of youth, warranting the be-

lieve that no institution can surpass this in all

that is necessary to prepare young men for

College most thoroughly or to lay the founda-

tion for a substantial and well ordered edu-

cation.

Terms per session of 5 months—in advance

Tuition in Primary Department, - - \$10.00

Higher Branches, - - - 15.00

GEORGETOWN COLLEGE,

KENTUCKY.

THIS Institution occupies a high rank

among Western Colleges. Its Library,

Cabinet, Museum, and apparatus are unsur-

passed. Its literary course is the same as that

of Yale College, while its scientific course

embraces all the best portions of the course at

West Point.

For young men designed for practical busi-

ness there is a course of three years in which

the most valuable knowledge is imparted in agri-

cultural Chemistry, Physiology, Zoology, Practi-

cal Engineering, Principles of Commerce, and

Book Keeping. In this practical feature the

College is believed to be unequalled. Its high

aim is to furnish American scholars, and American

business men. The rapidly increasing

number of Students in attendance is proof

of its high rank and efficiency.

This seat of learning is no mere experiment,

whose permanence is doubtful, and whose dip-

loma is therefore of uncertain value. It is in

a position to exercise and maintain a whole-

some discipline without the fear of extingui-

shment; and to require of its students every

thing scholarly and manly in their deportment.

It has boarding arrangements adapted to all

classes of students; and so adjusted as to

avoid the dangers inseparable from the prac-

tice of overcrowding 150 or 200 young men into

one building. Students for the ministry can

board for about \$40 per College year, for about

\$65 or 70; while those who may prefer board-

ing in private families can do so at from \$80

to 100. No student is allowed to board in any

family but such as the Faculty shall approve;

and a strict and kind supervision is exercised

by the faculty over every student where-

ever he may board.

The scholastic year is divided into two

sessions. The first commences on the third

Monday in September; the second, on the first

Monday in February.

COMMENCEMENT DAY

Occurs on the last Thursday in June. Tu-

tion \$20 per session.

The annual catalogue may be had by ap-

plication to the President, Rev. D. R. Camp-

bell L. L. D. S. F. GANO.

CAN BE EFFECTUALLY CURED BY

DR. HOOFLAND'S

CELEBRATED GERMAN BITTERS.

PREPARED BY

DR. C. M. JACKSON,

No. 120 Arch street, Philadelphia.

Their power over the above diseases is not

excelled, if equalled, by any other prepara-

tion in the United States, as the cures attest,

in many cases after skillful physicians had

failed.

These Bitters are worthy the attention of in-

valids. Possessing great virtues in the treat-

ment of diseases of the Liver and lesser

glands, exercising the most searching powers

in weakness and affections of the digestive or-

gans, they are, without fail, safe, certain and

pleasant.

READ AND BE CONVINCED.

H. W. Chaney, Millersburg, Ky., Oct. 16,

1852, said: "Having sold your Bitters some

time, I find it has given satisfaction in every

instance that has come under my notice."

Nelson & Edwards, Saltsburg, Ky., June 24,

1851, said: "We reject no salver who has

justly celebrated medicine has fully main-

tained the exalted reputation which has been

given it, and having tested its virtues, we unhesi-

tatingly say it is a valuable medicine."

J. T. & J. W. Berry, Uniontown, Ky.,

July 21, 1852, said: "We have heard of many

cures performed by the use of Dr. Hoofland's

German Bitters, and believe it to be a valuable

medicine."

J. Grant Irvine, Ky., June 26, 52, said:

"We have succeeded in introducing your Hoo-

fland Bitters, physicians and others purchase

them by the half dozen and dozen."

Dr. P. Fatio & Bro., Knoxville, Tenn.,

April, 9, 1851, said: "Your Bitters are now

selling very fast, and every person that has

used it, so far as we have been able to learn,

has been benefited."

These Bitters are ENTIRELY VEGETABLE, they

invigorate and strengthen the system, never

oppress it, and can be used for infants as

well as adults.

For sale by respectable dealers everywhere.

Sold by F. S. Barkley & Co Georgetown,

and by Dealers in Medicines every where.

Burglars About.
Last week the houses of Messrs. Mitchell and Smith, were entered or attempted to be entered for the purpose of plunder. In the first instance they were frightened off without having effected their purpose, in the second, we understand, they succeeded in securing about \$40. On Friday night these persevering gentlemen entered the store of our young friend Ed. Applegate, by breaking open a side door, after which they cut a way into his money drawer from which they extracted some twelve or fifteen dollars partly in silver. We understand that one of the parties annoyed in this way, asserts that there are three men engaged in this nefarious business, and the probability is, from their evident familiarity with locations, circumstances, &c. that they are not entire strangers in this community. As our penny wise and pound foolish Board of Trustees, have altogether dispensed, with a night watch, it behooves those who have anything to tempt burglars to be on their guard. So far as we are personally concerned, we have no uneasiness. Our money and valuables are like the scriptural definition of faith, 'the substance of things hoped for; the evidence of things unseen!' but our bowels of compassion yearn over our richer and therefore more unfortunate fellow citizens. By the bye, as the Board of Trustees, from prudential considerations, refuse to employ a night watch, would it not be advisable for the tax payers of the town to form themselves into an association for the protection of the interests of each other, at least until the present efficient Board of Trustees goes out of office or a competent night watch is appointed? If need be, we can show that this course on the part of our unofficial fellow citizens is essentially necessary.

Winchester Chronicle.
The first number of the above named journal, edited by R. S. Williams, Esq., has been received and is cordially welcomed to an exchange, not only because of its intrinsic merits, but also in consideration of the high complement paid us by its talented editor. 'General' H. R. French and 'President of the ugly Club,' verily, 'Honors are easy' in the good old county of Clark; while indignantly repudiating such utterly undeserved honors, we cordially extend the right of fellowship to our esteemed and talented new contemporary.

Speculators and others have a fine opportunity to buy good land and likely negroes; for information as to the whereabouts, see the advertisements of Messrs Reason Soward and Beverley Branham.

In another column we publish a list of the principal publications of Messrs. Fowlers & Wells, the publishers of those valuable periodicals, 'The Water Cure Journal,' 'The Phenological Journal,' &c. The works advertised would grace the library of any gentleman, professional or otherwise, afford much useful information, which, if properly applied by the individual purchasing, might save many a heavy bill from the so-called 'regular profession.' The series is very cheap, complete in its character and should be secured by every man who properly appreciates the system of healing taught in a plain, practical and familiar manner in the various water cure works published by Messrs. Fowlers & Wells. Single works may be obtained through the mail, at the prices fixed in the advertisement.

Hon. B. L. CLARKE.—Some time ago, we introduced the name of the gentleman at the head of this note as a proper one to be placed on the Democratic ticket for Governor. It may not accord with his views or convenience, and, indeed he may not be the choice of the party. Be those things as they may, we can say with confidence that there is no man in the State who would make a more vigorous canvass than the Hon. B. L. Clarke; nor one better calculated to rouse up the party and bring the voters to the polls. He is a thorough, uncompromising Democrat, and a powerful debater. [Henderson Reporter.]

Know Nothing.—This is the gentleman, we believe, who, a few years ago proved himself a *Know Nothing* of the very first water, by asserting in the Legislature, his belief that the progress of such Emancipationists as Stewart Robinson, 'would not rise higher than his head' and proclaiming the American system of slavery to be a moral, political and social blessing!

Arkansas U. S. SENATOR.—Hon. R. W. Johnson has been elected to the Senate of the United States by the unanimous vote of both houses of the Arkansas Legislature. Mr. Johnson is a man of talents. He represented his State in the lower house of Congress for a number of years with distinguished ability.

The Mormons at St. Louis.—The number 1820; they lately met and a vote was taken which was unanimous, to sustain Brigham Young as the Prophet, Seer, Revelator, and President of C. of J. C. L. S. throughout the whole earth.

A Know Nothing in Court.
Advocates of thisism may profit by the perusal of an article on the first page in which an honest and veracious *Know Nothing* appears as a witness in a Court of Justice, on a trial for rape, in which an unfortunate foreigner appears as defendant. It would seem, that the oath taken by the members of this society, are very similar to the 'higher law,' of Seward and his clan, and altogether overriding, in their opinion, the constitution and laws of our common country. This kind of a society may suit Northern Fusionists and Abolitionists, but it is not well adapted to suit the meridian of Kentucky, where the great mass of the people are neither bigots or fanatics; and repudiate any and all attempts at proscription for religious faith, political opinion or the accidents of birth. Read the article, if you wish fully to appreciate the *Know Nothing* creed.

Richard H. Hanson, Esq.
Prosecuting Attorney in the Ninth Judicial District, (says the *Cynthiana News*) resigned that office at this term of our Circuit Court, to take effect on the 4th of December, 1854.

Mr. Hanson is a gentleman for whom we have a high regard, not only for his social qualities, but for the talent and energy he has exhibited while the incumbent of the responsible office of Prosecuting Attorney. If an individual transgressed the laws of our Commonwealth, and was detected and brought to justice, the Prosecuting Attorney in the Ninth Judicial District shrank not from his duty, whether the criminal was friend or foe. Richard Hanson has filled this office better than two years, and he has always been at his post, unless prevented by sickness. He retires now with honor and credit to himself and the Bar; and we regret with his friends, the loss of so efficient an officer. Success to him wherever he may go.

We understand that L. B. Dickerson, Esq., of Scott Co., will fill the expired term of Prosecuting Attorney, by appointment from Judge Duval.

COL. C. M. CLAY.
This gentleman, in connection with some other Kentucky gentlemen, has established a Banking House in Cincinnati, which, even during the crash of Banks and wreck of Brokers, commands public confidence almost to an unlimited extent. Proof positive of the universal acknowledgement of his sterling integrity and high toned honor. Col. Clay is not popular in this State, because of his advocacy of unpopular views; but rarely are men endowed with a nobler spirit than he; gifted with a superior intellect and all the virtues of a philanthropist and patriot, we could have wished that he might have remained in his native state, to become one of its brightest ornaments; but as *Vox Populi* have long since decided otherwise, and we patriotically submit although not altogether approving, all that we can say for him now, is, that in his present pursuit we trust that he may meet with that success which his noble qualities of head and heart so richly merit.

Life after Freezing.—It is said that the scientific men of France are at present speculating on a recent instance of a young man brought to life after being frozen eleven months on the Alps. The blood of a living man was infused into the veins of the frozen youth, and he moved and spoke. The experiment was afterwards tried on a hare, frozen for the purpose, with complete success.

There will be a good sprinkling of clergymen in the thirty-fourth Congress, James Meacham, from the First district of Vermont, is a clergyman; and so is Alvah Salin, from the Third district. Ebenezer Knowlton, from the Third district of Maine, is a Free-Will Baptist preacher. John J. Pearce, elected in the Fifteenth district of Pennsylvania, Robert B. Hall, in the Fourth district of Massachusetts, and Mark Trafton, in the Eleventh, are ministers of the gospel.

ELOPMENT.—Strange as it may seem, a clear case of unlicensed departure took place in our village some days ago. The parties were from Pike, originally, and it was fun to see their way of doing the matter up. The woman has a husband living in town, who expressed his unwillingness with regard to the proceedings by clinging to her dress. The books gave way, and the fair damsel went out of the village in her petticoats.—Exchange.

Arkansas U. S. SENATOR.—Hon. R. W. Johnson has been elected to the Senate of the United States by the unanimous vote of both houses of the Arkansas Legislature. Mr. Johnson is a man of talents. He represented his State in the lower house of Congress for a number of years with distinguished ability.

The publishers of the *Mayville Express*, contemplate starting, about the 1st of January, a paper, devoted exclusively to agriculture, in its various departments, and kindred subjects. There is now, no agricultural paper in the State. A good one, we have no doubt, would receive a liberal support. We trust the enterprise may prove successful.

The editorial management, it is said, will be in the hands of a gentleman of experience and ability.

A dispatch to the *New York Herald*, dated the 26th, states that a national convention of *Know Nothings* met, in Cincinnati, on that day, and that twenty-eight states (California among the number) were represented. It states also, that a candidate for the Presidency was to be selected, and that Sam. Houston of Texas, Jacob Broom of Pennsylvania and Millard Fillmore of New York, were the three prominent competitors.

The editor of the *Georgetown Herald* has been visiting a soler spring, and drank several large goblets of the water. His stomach must have been hugely astonished at the introduction of any kind of water into it.—*Times*.

Our stomach was 'hugely astonished' at our 'ridiculous error,'—as much so, almost as were the readers of the *Times*, when the affected fastidious stomach of its junior editor committed the 'ridiculous error' of rejecting a certain potent Democratic spirit!

Dr. Newland, Treasurer of Indiana, advertises in the *Indianapolis papers* that he will receive in payment for revenue for 1854, gold and silver coin, the notes of the State Bank of Indiana, and of the specie-paying Free Banks of the State. Also, the notes of the solvent specie-paying banks of Kentucky, Ohio and Missouri, that are at par in Indianapolis.

There is quite a schism among the Baptists of New York. The translation of the Bible has been a bone of contention among them for some time. It seems the majority are satisfied with the present version, but the learned portion denounce it as full of errors. The most material point between them is that those in favor of a new version insist the word 'Baptism' should, in every instance, have been rendered 'immersion.'—

We find in our exchange the following caution:
The Masonic Fraternity and the public generally are cautioned against a man calling himself Richard Henry Lee, who says he was a chaplain at Fort Inge, Texas, and that he is now on his way to Washington, D. C. He is no doubt a base impostor and great scoundrel, and is traveling from Lodge to Lodge asking aid as a distressed Master Mason.

The *Dayton Journal* publishes in a letter from a friend the following recipe for scrofula. It is the discovery of Nicholas Longworth, of Cincinnati, and has been used with success:

To one table spoonful of aquafortis, two of strong, clear vinegar is added, and two copper cents are dropped in which create a strong effervescence, and are left in till it ceases to sparkle. The preparation is twice a day applied to the sore with a soft rag.

Gov. Powell is recommended by a correspondent of the *Frankfort Yeoman* as a candidate for the Presidency.

Gardner, the *Know Nothing* candidate for Governor in Massachusetts, received 31,000 majority over the combined vote of his four competitors.

Masons Must Not Fight.—According to the *Masonic Register*, the following resolution has passed the Grand Lodge of California.

Resolved, That the practice of duelling is repugnant to the principles of Freemasonry, and in all cases where the brethren resort to this mode of settling their disputes, it becomes the duty of the Lodge or Lodges of which they are members, or under whose jurisdiction they may be, forthwith to expel them from all the rights and privileges of Masonry, subject to the confirmation of the Grand Lodge; and no brother who may fall in a duel shall be buried with Masonic honors.

The following was also passed, and we should think, would be considered wholesome.

Resolved, That it is the opinion of this Grand Lodge, that the use of Masonic emblems upon sign boards is unmasonic, and in open violation of the spirit of Freemasonry.

NEW YORK, Nov. 21.
A Washington dispatch to the *Herald*, says that the Cabinet will be reconstructed in January; that Campbell and Guthrie will go out; that John C. Breckinridge will be attorney General, Caleb Cushing, Secretary of the Treasury, and M. Mason, Secretary of the Navy, and that there will be entire change in the foreign appointments. Mr. Marcy goes to England.

Industry is essentially social. No man can improve either himself or his neighbor without neighborly help, and to better the world is to set the world to work together. Every useful invention has been carried out and perfected by the co-operation of many minds, or by the successive applications of varied genius to the same object, age after age. The mechanic must stand still in his demonstrations; and the philosopher must aid the mechanic, or he will work without wisdom. The astronomer needs the telescope, and the chemist his material and apparatus. The sciences hang on the arts, and the arts on sciences. But without the philosophy from heaven, neither art nor science would look off the earth, and industry would die a natural death and live no more; for religion alone is the living spirit of human sociality.

The Maine Law advocates of Fayette county have appointed delegates to their ice-water convention, to be held at Frankfort in December. Gen. Leslie Combs, the veritable Potawatamie, presided. We suppose the General has had his share of liquor, and is disposed to quit. Well, he has a right to do so, and we rather suppose it is about time he was doing so.—*Courier*.

The *Utica Telegraph*, of a recent date, contains the following brief but ominous paragraph: 'Ha! ha! ha! It's a girl.'

Look not mournfully into the past, it cannot return; wisely improve the present, it is thine; go forth to meet the shadowy future without fear, and with a manly heart.

THE CIRCULATION OF THE BLOOD is justly esteemed the greatest ordination of Divine Providence; by that beating engine, the heart is driven to circulate the vitalizing vigor and strength to the complicated machinery of man. This living blood, whether we sleep or wake, rushes briskly through the arteries and returns softly through the veins. How necessary that it should be kept free from all impurity, and yet how negligent many are respecting this great essential to the enjoyment of perfect health. Derangement in the Liver and Nerves is generally the primary cause, and Jaundice, Indigestion, and all the harassing feelings attending Dyspepsia which makes life a burden result from it. Suicide would rapidly follow suicide, if there was no one. No one would suffer long, if he is able to obtain a bottle of Hood's celebrated *Sanative Bitters*, prepared by Dr. C. M. Jackson Philadelphia. They rarely fail in effecting a permanent cure.

PALPITATION OF THE HEART NERVOUS DISEASES, Liver Complaint, Neuralgia, Dyspepsia, Costiveness and Piles, are all relieved and cured in an incredible short space of time by Carter's Spanish Mixture, the great tonic and purifier of the blood. It contains not a particle of Mercury, Opium, or any noxious drug; is perfectly harmless, and has cured more than five hundred cases of disease. We can only refer the reader to the certificates, a few of which may be found in another column, and all of which are detailed in full around the bottle. It is the greatest of all Spring and Fall Medicines, and possesses an influence over the blood truly remarkable.

See advertisement.

obligation?
A. I think I did—the words 'so help me God' were a part of it.
Q. Are there different degrees in that society?
A. There are.
Q. How many?
A. Two.
Q. Have you seen John A. Gardner taking part in any meeting?
A. I have.
Q. What part was he taking? Was he an officer?
A. It was in a town meeting where I saw him.
Q. Why do you answer in that manner? When I said meeting, did you suppose I meant town meeting?
A. I did not know but that you did.
Q. Have you seen Gardner taking part in such a meeting of a society such as I have described to you; and, if so, what part?
A. I do not know what part.
Q. Has your society a password?
A. It has.
Q. Has it a grip or token by which you gain admission?
A. It has; but I will not disclose it.
Q. What did you mean when you testified that you did not belong to any such society as that called 'Know-Nothings'?

A. I said I did not belong to the 'Know-Nothings'.
Q. What did you mean when you said that you did not belong to any secret society opened to aliens when you now admit that you do, and take an oath to keep it secret?
A. I think it is not much of a secret society when all the doings get into the newspapers.
Q. Is that all your answer?
A. It is.
The witness was then examined on other parts of the case, and
A. M. Gage was then recalled, and testified that he was a member of the order of 'Know-Nothings' and had joined them about three months ago; that he believed that the oath taken from the Pennsylvania and republished in the Boston Post, as read to him, was about the obligation, in substance, that he had taken, but could not exactly remember; that since he joined, he had not taken much notice about it.
Norman Smith was then called by the government, and on cross examination he testified, among other things, as follows:
Q. Are you a member of a secret society opposed to aliens?
A. I am a member of such a society for political purposes.
Q. Is it not opposed to aliens in a social point of view?
A. Perhaps it is.
Q. Does it not also exert a religious influence?
A. Some think it does.
Q. Did you not take an obligation in the nature of an oath when you joined that society?
A. I do not know what its nature is—I call it a promise.
Q. Did you not call on God to witness the promise?
A. I can't remember whether I did or not.
Q. Are you an officer in that society?
A. I cannot answer, as it might criminate me.
Q. Were you not the founder of the society in Groton?
A. I was not.
Q. Were you not instrumental in getting it up?
A. I do not know but that I was. I cannot answer, as it might criminate me.
Q. Are not the members of this society sworn in all things to obey the will of the majority lawfully expressed as against aliens, either religiously, socially, or politically? Is not this a part of the oath or obligation, in substance, which you have taken?
A. I can't remember.
Q. How do you know how to observe your promise or oath, if you have forgotten what the substance of it is?
A. I cannot answer, as it may criminate me.
Q. What are the qualifications of membership in your society. Can an alien belong to it?
A. No.
Q. Can a Roman Catholic?
A. Not if he is a foreigner.
Q. Can he if his relatives are Catholics?
A. If his wife is a Catholic, although he may be a Protestant.
Q. What is the object of this society?
A. (With great emphasis.) To preserve our liberties.
Q. Then, you think "our liberties" in danger, do you?
A. From foreigners.
Q. Then, you are prejudiced against aliens like my client who are going to take away your liberty?
A. No, I have no prejudice against them.
Q. Well, then, doctor, if you have no prejudices against foreigners, tell me what questions are asked the candidates for admission to your lodge?
A. I cannot tell.
Q. What is the character of the obligation you took when you joined?
A. I cannot tell.
Q. Why not?
A. I have bound myself not to.
Q. But you have sworn here to tell the truth, and the whole truth, and you must answer in spite of the reason you have just stated.
A. I shall not tell unless I am obliged to.
Q. You must answer, unless it will criminate you.
A. It might criminate me.
Q. How can it criminate you if, as you say, you have taken no unlawful oath and the object of your society is not illegal?

MEDICINES FOR THE PEOPLE!
Unsurpassed by any other preparation.
D. M. BENNETT'S
FAMILY REMEDIES.
Bennett's Vegetable Purifier,
A Combined Fluid Extract of the most valuable roots and plants of North America. Unexcelled for cleansing the blood, removing chronic diseases, repairing shattered and broken constitutions, and curing female complaints. It contains four times the strength of the usual preparations of Sarsaparilla, and is decidedly superior to them all as a curative agent. Price 50 cents per bottle.
Bennett's Imperial Tonic.
A positive and certain cure for Chills and Fever, and is warranted to contain no quinine. It is a vegetable compound, infallible in its action, and is surpassed by no other tonic in use. Price \$1 per bottle.
Bennett's Indian Cough Balsam.
A highly valuable remedy for Coughs, Colds, Hoarseness, Spitting of Blood, Incipient Consumption, and all Pulmonary Diseases. The uniform success which attended the using of this article, entitles it to the confidence of every person. Price 50 cents per bottle.
Bennett's Root and Plant Pills.
One of the safest, and most efficient vegetable purgatives in the world. Their operation is remarkable for certainty, pleasantness, and ease. For bilious habits, disordered stomachs, and recent attacks of disease, they are not excelled by any other pills. Try a box of these pills, and they will ever afterwards prefer them to all others. Price 25 cents.
Bennett's Sanguine Worm Lozenges.
The best medicine for worms of the present age. They expel worms with unerring certainty, are entirely safe and so pleasant to the taste that children take them as readily as candy. They are for all kinds of worms, and are superior to any Vermifuge or other worm medicine in use. Price 25 cents per box.
Bennett's Essence of Jamaica and African Ginger.
A valuable and useful family medicine. As a stimulant, carminative and stomachic, it is excelled by no other article; and is used with great effect in dyspepsia, acidity of the stomach, pain in the stomach and bowels, diarrhea, cholera morbus, &c., &c. Price 25 cents per bottle.
Bennett's Hyperion.
An excellent preparation for promoting the growth and restoration of the hair, and for preventing baldness arising from falling off of hair, removing dandruff and rendering the hair soft, luxuriant, and beautiful. It is surpassed by no preparation of the kind in use. Price 25 cents per bottle.
Bennett's Lame Man's Liniment and Pain Annihilator.
For internal and external use. The greatest medicine in the world for rheumatism and all kinds of lameness, pains external and internal, injuries of all kinds, cholic, cramps, cholera morbus, diarrhea and even cholera. Its diffusible, stimulating, and penetrating properties, are unequalled by any other known medicine. It has but to be used to be appreciated. Try it for diarrhea, internal or external pains. Try it for any kind of lameness or old sores, and you will become acquainted with its superior properties. It is applicable to horses and other animals as well as man. Price 25 cents per bottle.
Friends and Strangers, if you want good, reliable, and safe medicines, procure Bennett's Family Remedies. If you are afflicted with disease, make use of them; if your friends are, recommend them to use the "Remedies." You will be pleased with them, and will find they will not fail you in the hour of need.
Sold by the Wholesale and Retail Druggists of Cincinnati, and by country Merchants generally. Also for sale by

VENI VIDI VICI!
PULVERMACH'S
Hydro-Electric Voltaic Chains!
For the first time, presented to the people of Georgetown and vicinity, as a new, scientific and convenient mode of applying Electro-Magnetism, in the instant relief and permanent cure of all nervous diseases: Rheumatism, Palpitation of Heart, Painful & Swollen Joints, Rheum, pains of chest, Neuralgia of the Face, Female Diseases, Deafness, Blindness, Contracted Limbs, Dyspepsia, Flatulence, Contracted Limbs, Pains in the Back, Paralysis, Sciatica, History.—Pulvermacher's Chains were first introduced into this country about one year since, in the City of New York, where they were subjected to the most rigid and thorough trial in every hospital in that city, by Professors Valentine Mott, Van Buren, Post, Cantrich and at once discovered that they possessed strange and wonderful power in almost instantly relieving all nervous pain wherever located; and so satisfactory were the results produced, in every case, that their opinions were published through the public press, and thousands have been induced to try them, and in no single instance have they failed to perform all we advertise to do. They are patented in this country, France, England, Germany, Austria and Belgium, and are in use in every hospital in Europe, and also in every hospital of N. Y. City.
No other Medical Agent can produce so many well authenticated Certificates of cure—not only from intelligent patients, but from Scientific Physicians, and their sale wherever introduced has been unparalleled.
The chains are so constructed as to be worn near the skin, producing a constant current of Electro Magnetism—can be used by either adults or children never get out of repair, and with proper care will last for years.
Price of Chains, \$3 and \$5, and can be sent by mail to any part of the country. A pamphlet of 36 pages always accompanies each chain, and can be had of any agent, gratis.
CAUTION TO LADIES.—Ladies who are afflicted are requested not to use them for a great length of time only for a few moments; by continued use, miscarriage is frequently produced. For Uterine Pains, one end of the chain to be applied over the abdomen, and the other upon the spine, just above the hips.

READ THIS—MEDICINE FOR THE AFFLICTED.—DR. HALL continues to be consulted at his Office, No. 57, East Third street, on all diseases of a
PRIVATE OR DELICATE NATURE.
By a long course of study and practical experience of unlimited extent, Dr. H. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them failed to cure the most alarming cases of.
GONORRHEA AND SYPHILIS.
Beneath his treatment, all the horrors of venereal and venereal blood, impotence, Scrofula, Gonorrhea, Ulcers, pains and distresses in the regions of Procreation, Inflammation of Bladder and Kidneys, Hydrocele, Abscesses, Hemorrhoids, Frightful Swellings, and the long train of horrible symptoms attending this class of diseases, are made to become as harmless as the simplest ailments of a child.
SEMINAL WEAKNESS.—Dr. H. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for either business or society. Some of the sad and melancholy effects produced by early habits of youth are, weakness of the back and limbs, dizziness of the head, dimness of sight, palpitation of the heart, dyspepsia, nervousness, derangement of the digestive functions, symptoms of consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating marriage consult a physician of experience and skill and be at once restored to health and happiness.
AGUE AND FEVER cured in 24 hours, warranted.
All letters addressed to Dr. L. Hall, box 1364, Cincinnati, O. Medicines sent to any address safely packed and secured from observation.
Office at No. 57, East Third street, bet Sycamore and Broadway, Cincinnati.

SANDS'
SARSAPARILLA.
IN QUART BOTTLES.
For Purifying the Blood, and for the Cure of
Scrofula, Rheumatism, Stubborn Ulcers, Dyspepsia, Salt Rheum, Fever Sore, Erysipelas, Pimples, Biles, Mercurotic Eruptions, Cutaneous Eruptions, Liver Complaint, Bronchitis, Consumption, Female Complaints, Loss of Appetite, General Debility, &c.
This preparation all the restorative power of the root are concentrated in their utmost strength and efficacy; but while the Sarsaparilla Root forms an important part of its composition, it is at the same time combined with other vegetable remedies of great power, and it is in the peculiar combination and scientific manner of its preparation, that its remarkable success in the cure of disease depends. It acts simultaneously upon the stomach, the circulation and the bowels; and thus three processes, which are ordinarily the result of three different kinds of medicine, are carried on at the same time, through the instrumentality of this one remedial agent. It gently stimulates while it disinfects and expels from the stomach and bowels all that is irritating, and at the same time restores their vigor and tone. Many other preparations imitate it in bearing the name Sarsaparilla, and in that their resemblance ends, being often prepared from worthless and inert roots, and of course possess no healing or curative properties, and patients in making choice of which they will use should take no other, but that one entitled to their confidence, from the long list of cures it has effected on living witnesses, whose testimonials and residence have been published, and who are still bearing daily testimony to its worth.
ASTONISHING CURE.
Patterson, N. Y. 20th, 1851.
Messrs. A. B. & D. Sands: Gentlemen,—
Having witnessed the most beneficial effects from the use of your Sarsaparilla, it gives me pleasure to send you the following statement in regard to my son. In the spring of 1848 he took a severe cold, and after eight weeks of severe suffering the disease settled in his left leg and foot, which soon swelled to the utmost. The swelling was lanced by his Physician, and discharged most profusely; after that no less than eleven surgeons formed on the leg and foot at one time. We had five different Physicians, but none relieved him; and the last winter found him so emaciated and low that he was unable to leave his bed suffering the most excruciating pain. During this time the bone had become so much affected that piece after piece came out, of which he has now more than twenty-five preserved in a bottle, varying from one half to one and a half inches in length. We had given up all hopes of his recovery, but at this time we were induced to try your Sarsaparilla, and with its use his health and appetite began immediately to improve, and so rapid was the change, that less than a dozen bottles effected a perfect cure.
With gratitude, I remain truly yours,
DARIUS BALLARD.
We the undersigned, neighbors of Mr. Ballard, cheerfully subscribe to the above statement.

HORSE SHOEING AND BLACKSMITHING.
THE advertiser would respectfully inform his friends and the public that he has taken the shop just below the shop formerly occupied by Roland & Cain, where he is prepared to execute every kind of Blacksmith work, in the best style and on the most accommodating terms.
In consequence of the rise in the price of iron, coal, wages, &c. the undersigned is compelled to raise the price of shoeing to \$1.25 all round—and in proportion for other charges; the regular price fixed upon by the craft. A share of public patronage is respectfully solicited.

PATRICK CAIN.
HORSE SHOEING & BLACKSMITHING.
THE advertiser would respectfully notify his friends and the public that he still carries on the BLACKSMITHING business in all its branches at the old stand formerly occupied by Roland & Cain, where he is prepared to execute work for his old and new customers in the best style and in accordance with the recent raise in prices determined on by the craft. Particular attention paid to horse shoeing and satisfaction warranted. A share of public patronage respectfully solicited.

GEORGETOWN
CARRIAGE MANUFACTORY.
At Forwood's Old Stand.
THE subscriber having purchased the entire interest of A. W. Forwood in the manufacturing and repairing of Carriages, &c., and having secured the services of his Brother John Clark, who has been long known as a manufacturer at Newark, N. J., and other experienced workmen from the east, is now prepared to furnish Carriages of any description, on as favorable terms as any establishment in the United States. Every branch of repairing will be executed in the best manner and on reasonable terms with punctuality and despatch.
HENRY CLARK,
Georgetown Jan. 21, 1854-47-ly.
TAKE NOTICE.
THE undersigned would respectfully notify his friends and the public generally that he purchased the entire interest of John Will West in the Georgetown business through a capable agent. He would also notify all those who are indebted to the concern to come forward immediately and settle up the amount of their respective indebtedness, if they would save cost.

SAN. KEENE says "Tom,"
and his Gentlemen to say, and we will send you the darkies."
Well, Sam, as you have long prospered with your custom, I believe I would as soon make a small exchange with you as not; as I have some of the Gentlemen (?) custom to spare. By the way, we have just received another supply of that fine old Gold Leaf Tobacco.
